Re: Dixon Construction
Toronto Island Filtration Plant
Winterization / Summerization

To whom it may concern:

During the course of construction work on the Toronto Island Filtration Plant (2002-2005) we had the opportunity to work with Dixon Construction and their forces on the architectural and structural thermal upgrade components of the project.

In particular we would like to compliment the cooperation we received from Dixon's site project manager Ezzio Divona, Fairview Glass, and Triumph Roofing. Their fostering of teamwork and sound workmanship was a major contribution to the success of the project.

Yours very truly,

R.V. ANDERSON ASSOCIATES LIMITED

Mike Banks
Project Manager
