To Whom It May Concern:

I was the Project Manager for the construction of the Chandler Mowat Community Centre built this year. The contractor was M. J. Dixon Construction Limited.

The site supervisor was Tim Presswood. I dealt with Tim during the construction phase. He was a pleasure to work with. He was helpful and very much in charge of the sub trades. The project was constructed on time and the few issues that arose were dealt with very professionally and efficiently. I would not hesitate to prequalify Dixon for future work especially if Tim was proposed to be the supervisor.

Sincerely,

Laurier Proulx CET, CMM III
Director of Facilities Management
