TO WHOM IT MAY CONCERN

RE: Mr. Ali Farahazi, Project Manager

Mr. Ali Farahazi was the Project Manager for the General Contractor that completed the addition to the Hotel and Tourism Management facility at the University of Guelph in 2003. The \$ 2.2M project was complex with an aggressive schedule and many Owner and Consultant initiated changes. To add to the challenge, there were several occupied areas immediately adjacent to the construction site.

The work included a full size commercial demonstration kitchen, a model restaurant dining room, offices, a tunnel extension, various renovations to existing areas and associated site work.

Throughout the project, I have been very satisfied with Mr. Farahazi's performance. He is thorough, responsive and professional. I have no hesitation in working with him again on a similar project in the near future.

Sincerely,

Wilfred Ferwerda, P.Eng
