Dear Mr. Dixon,

The project at the Old City Hall has been completed to the satisfaction of our client the Court Services. In spite of the site limitations imposed by this historical building the project moved smoothly and met the schedule. This was very important to our client.

In particular, I want to thank Ali Farahzadi for the project well managed, from both, technical and public relations aspects.

I am anticipating equally successful results on our next project at 1530 Markham Road.
